Ex-Confederate General Buckner Calls on General Grant.

THE CLEVELAND STRIKE GOES ON

The Democratic Idea of Reform—Tornado in New York State—Mrs Bayard Dying—The Races at Washington Park

MOUNT MCGREGOR, July 10.—Soon after 11 o'clock last night General Grant was assisted [illegible] At [illegible] o'clock this morning rain fell in torrents with thunder and lightning. The general slept through the storm until 4 o'clock, when Dr. Douglas awoke him to give him food and treatment. It has been raining very heavily, remarked the [illegible] to the general as the latter was taking nourishment. The patient glanced up in some surprise, but upon again being assured of the fact he wrote to the doctor: "You must have been dreaming. I have heard no rain, and I have been here all the time." From 4 o'clock until nearly [illegible] o'clock this morning the sick man slept, and the morning has been passed by him in his room. His pulse is of fair volume at 80, but not so good as it had been up to three days ago. The doctor believes the patient has not recovered the strength lost on Wednesday afternoon. Statements made in [illegible] [illegible] papers that Mrs. Grant was sharing with Mark Twain in the proceeds of the bust of General Grant [illegible] the general's family. They are flatly contradicted by Karl Gerhardt, the sculptor, who this morning was a caller at the Grant cottage.

GENERAL BUCKNER CALLS.

MOUNT MCGREGOR, July 10.—General Grant [illegible] received a telegram from ex-Confederate General Buckner, asking if in the event of his visiting Mount McGregor he would be permitted to see General Grant. Colonel Grant last evening replied with regards that his father was not strong enough to see him. This morning, however, another message was sent to General Buckner informing him that should he come this morning, General Grant would receive him and he accordingly [illegible] General Buckner and wife alighted at the station on the top of the mountain. When General Buckner had been presented to Colonel Grant and others on the cottage veranda he was conducted to the general's room, where the sick man was awaiting his visitor. Grant and Buckner were fellow students at West Point, and when Fort Donelson fell Buckner was the first confederate general captured by General Grant. The meeting was affecting and the interview lasted an hour. General Grant afterward showed considerable [illegible] as the result of the interview. Outside from this his condition is not changed from that of this morning.

A CONTEST FOR CUSTODY OF BLIND TOM.

ALEXANDRIA, Va., July 10.—In the federal court yesterday the mother of Blind Tom, the colored musical phenomenon, sued out a writ of habeas corpus to get possession of her son or a portion of his earnings, and making various allegations. Tom is under contract to General Bethune. The case came up to-day. Counsel for the mother and others claimed that this court had jurisdiction of the case, and that a Fauquier county court had not and never could have acquired jurisdiction. The judge decided that General Bethune became a resident of Virginia in 1870, and that Tom being then in both the possession under contract, he also became a resident and the court of Fauquier had jurisdiction. The judge in delivering his opinion said: "I have nothing to do with the question of his [illegible]. My only inquiry is whether Tom is held as a slave. I do not see how the petitioner in this case, his mother, after her contract of 18[illegible] and her acquiescence for fifteen years in the action of the [illegible] court in committing Tom to Bethune, can now insist that he is held as a slave. Evidently he is not held as a slave. I therefore have no right or jurisdiction to remove him from his present custody and feel bound in the interest of humanity to remand him to the custody in which he was [illegible] in which he has lived all his life and in which he is anxious to remain."

During the trial of the case, in order to allow the court to form an opinion as to the [illegible] of Tom, several questions were propounded him by the court, to all of which he gave fairly [illegible] [illegible]

A CATTLEMAN MISSING.

HILLSBORO, Tex., July 10.—W. A. Jackson, senior member of the large cattle firm of W. A. Jackson & Bro., is mysteriously absent from home. About three weeks ago Jackson took a bunch of cattle to Chicago and sold some and started back [illegible] but no further trace of him has been discovered. About $50,000 worth of the firm's paper is held by bankers of Fort Worth, Dallas, Waco and Hillsboro. The Hillsboro National bank, the Waco State bank and several other creditors have attached all available property belonging to the firm in Texas. Several other well known cattle men who endorsed heavily for Jackson are involved. A. C. Jackson, the remaining partner, has gone in search of his brother.

A TOWN IN TERROR.

THE [illegible], July 10.—An Indiana, Pennsylvania special says: Five thousand people of this town are in terror. Most any night their homes may be burned over their heads. Citizens go armed at all hours and stores have been cleared out of revolvers. The excitement is caused by Jack Sackett, alias Bob Milton, one of the most desperate characters in this end of the state, who is prowling about through the country at the head of a band of ex-convicts. Several attempts have been made by the gang to burn the town on account of Sackett's hatred toward those here who caused his arrest and conviction for robbery.

THE CLEVELAND STRIKE.

CLEVELAND, July 10.—Advices from the Fourteenth and Eighteenth wards show everything quiet in those localities, and it is supposed that no further public parades will be attempted, though a meeting of strikers is called for this afternoon. It is rumored that an attempt will be made to start the plate mills on Monday next. Should this be done it is not improbable that trouble will ensue. Payday is next week Wednesday, when an outbreak is feared. The disposal of the police force and military organizations remain the same as yesterday.

CLEVELAND, July 10.—The entire police force, except specials sworn in for extra duty, have gone to the Eighteenth ward. The city authorities have learned that there is to be a parade of strikers in that vicinity this afternoon, and to prevent any further destruction of property it is deemed best to mass police in that quarter.

STRIKE IN MICHIGAN.

EAST SAGINAW, July 10.—At 1:30 o'clock this afternoon a procession of 1000 strikers, escorted by bands of music, marched through the streets towards the river and commenced shutting down the mills on the west side. No act of violence is reported. A great majority of the mill employes on the other side of the river are opposed to the strike and would continue to work if left alone. The mayors of Saginaw and East Saginaw and the sheriff of the county have issued orders closing all saloons and cautioning the strikers against [illegible] violence.

THE DEMOCRATIC IDEA OF REFORM.

MARMONT, Ind., July 10.—The democratic state editorial convention to-day passed resolutions declaring its belief that radical reform in government affairs is only possible through the appointment to civil positions of persons in full sympathy with the democratic party, as represented by its statesmen and leaders. A resolution was also adopted deprecating the presumption that cause should be shown for removal of republicans from office.

TORNADO IN NEW YORK.

SCHENECTADY, N. Y., July 10.—The village of Aqueduct on the Mohawk, where the Erie canal crosses the Mohawk river, was struck by a tornado yesterday afternoon. Orchards were uprooted, barns demolished and chimneys blown, hundreds of [illegible] away. The damage amounts to thousands of dollars. The storm swept a straight track two miles long and only fifty feet wide through the towns of Glenville and [illegible]

FAMINE [illegible] THE HESSIAN FLY.

ROCHESTER, N. Y., July 10.—The Hessian fly is doing great devastation in wheat fields of various towns in Wayne county. In the [illegible] the loss is estimated at $[illegible]000. In the immediate vicinity of Lyons the loss is estimated by careful observers at $[illegible]000. In some places farmers are burning wheat fields in order to exterminate the insects as far as possible.

THE STATE [illegible] TRADE.

NEW YORK, July 10.—Mr. Wiley, who has charge of the [illegible] goods department of [illegible] store, said to-day that dealers in [illegible] [illegible] holding [illegible] for the season which begins on the 15th of July. "I don't think you will see the advance [illegible] of in the papers. From $1 15 to $1 [illegible] is the price we get for it now."

MRS. BAYARD DYING.

WASHINGTON, July 10.—[illegible] last night Mrs. Secretary Bayard seemed to improve slightly, but [illegible] this morning her illness took an unfavorable turn and her physicians now abandon hope. Fears are entertained that she may not live through the day.

GREATLY DEPRESSED.

BIRMINGHAM, July 9.—At a meeting of the Midland iron trade to-day great depression was reported. Failures are increasing, and the bulk of the iron works are not paying expenses. Competition is severe and prices are ruinous.

[illegible], July 10.—Fire started yesterday [illegible] [illegible] [illegible] hundreds of acres of valuable bog and is still burning. Continued drought made the grass and vines very inflammable and the fire spread with lightning like rapidity. It spread to the West Jersey meadows, containing thousands of acres of grass and cranberries, thousands of dollars worth of the latter fruit nearly ripe for market being destroyed. Two dwellings have been burned. The fire is now traveling towards [illegible] and [illegible] mills and the people are [illegible]

HOW THE EXPOSE STARTED.

LONDON, July 10.—The origin of the *Pall Mall Gazette* articles was in the arrest of a woman known as Madam Jeffries for the abduction of a young girl from Holland. She occupied one of the [illegible] [illegible] [illegible] but is understood to have owned and used for her purposes some twenty other houses in various parts of London. It is reported the police seized a number of [illegible] and [illegible] bound volumes in which she kept a regular debit and credit account of her business. These entries embraced hundreds of names from the most exclusive circles of London and [illegible] known New Yorkers who visit [illegible] every year. It is whispered that the [illegible] establishment was founded through direct [illegible] of the prince of Wales, and an [illegible] of the editorial [illegible] [illegible] [illegible]

LONDON, July 10.—In the commons this afternoon [illegible] [illegible] North [illegible] [illegible] [illegible] [illegible] of yesterday asked Cross, home secretary, whether he could assure the house that the government had given orders to the police to do their utmost to suppress abomination in London revealed by the *Pall Mall Gazette*.

The home secretary replied that the police would use every exertion to suppress the alleged practices. The existing law, supplemented by the criminal amendment bill, would suffice to bring justice to the perpetrators of such abominations.

LONDON, July 10.—The first public breach between the Parnellites and the new government occurred this evening in the house of commons, when Mr. Holmes, attorney general for Ireland, refused to inquire into the dismissal of Police Inspector Murphy and justified his dismissal on the ground that he was connected with Crimes inspector [illegible] and Secretary Cornwall. Mr. Parnell declared that he heard the government's decision with amazement.

THE PARNELLITES REFUSED.

LONDON, July 10.—The government, after much meditation, has decided that it cannot support Mr. Parnell's motion of inquiry into the conduct of officers in the [illegible] Maamtrasna cases. This decision will probably result in the Parnellites withdrawing their support [illegible] they have [illegible] the present government.

More of the Cattle Trail Dispute—The Navy Yards to be Reorganized—The Mare Island Yard to Receive the Most Attention

WASHINGTON, July 10.—The monthly [illegible] has been favorable to the [illegible] of winter wheat. A slight improvement is indicated, which will affect [illegible] the general average between [illegible] [illegible] [illegible] [illegible] New York, Pennsylvania [illegible] Michigan, Indiana, Illinois and Missouri are likely to make improvement, as well as in California and Oregon. The winter wheat region which does not include the territories now promises about 250,000,000 bushels.

The condition of spring wheat continues higher, though the average has been reduced slightly, the average being nearly 96. The indications now point to a crop of about 118,000,000 bushels for Wisconsin, Minnesota, Nebraska, Dakota and all the [illegible] territories and northern New England. This [illegible] an aggregate of 357,000,000 bushels.

THE CORN CROP.

The increase [illegible] corn area of last year has apparently been [illegible] [illegible] or at least 4,000,000 acres, making an aggregate of 73,000,000 acres. The largest increase is in the Mississippi valley. The condition of corn is higher than in any year since 1880, except [illegible]. It averages 94 against [illegible] last. It is higher in the south and higher in the [illegible] than in the west. The [illegible] average is 96, that of Michigan and Missouri [illegible] Illinois, Indiana and Missouri [illegible] Ohio and Nebraska.

The average of winter rye has increased from [illegible] since the first of June. The general average of [illegible] [illegible] of last month. Oats have shared with all cereals in the improvement of the month. The only states below 90 are New Jersey, North Carolina, South Carolina, Georgia, Mississippi and California.

SENATOR [illegible] [illegible] QUESTIONS.

WASHINGTON, July 10.—The *Post* will publish to-morrow a detailed interview with Senator Morgan, who has recently returned from a visit of observation in Indian territory, in company with Senators Jones, Fowler, Dawes and Hay [illegible]. [illegible] of Arkansas and Maxey [illegible] in the south committee on Indian affairs. The most interesting portion of the interview is that referring to the Oklahoma question. [illegible] [illegible] this subject the senator expressed himself as follows: "It is Oklahoma matter is not and will [illegible] to be settled. Negro freedmen for whom that tract of land in the heart of Indian territory was purchased don't seem at all anxious or even willing to settle on it. They prefer to live on portions of land belonging to Indian tribes where they were before emancipation, and where they are at present located, but I think the committee will not be in favor of letting the Oklahoma boomers seize and monopolize it. I can not speak positively though, for the committee have not had a full conference on the subject, and will not until the senate meets, when they will hold a conference and report to the senate the result of their observations and deliberations. I would [illegible] Indians in [illegible] territory [illegible] [illegible] [illegible] than the Indians [illegible] [illegible] would encourage concentration of all the Indians [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] of New York and [illegible] [illegible] [illegible] to migrate to this territory, where they would have the benefit and example of the [illegible] civilized tribes. I am not in favor of having Oklahoma boomers divide the Indian country by taking possession of the very heart of it.

From present indications it is expected that the bureau will be able to make a comprehensive report to congress within [illegible] few weeks of the reassembling of that body. It will comprise a number of tables with [illegible] of preparatory statement of the [illegible] [illegible] and no attempt will be made to draw [illegible] [illegible] support of any particular theory.

TALK OF REDUCING VACATIONS.

WASHINGTON, July 10.—The heads of the executive departments have been considering the advisability of reducing the annual leaves of absence granted to department employes, and it is understood that the question was a topic of discussion at yesterday's cabinet meeting. The general impression now is that these leaves will be reduced from thirty to twenty days. In consequence there is a good deal of suppressed growling among employes, especially in the postoffice department, where the clerks have been working overtime at night for months past in an attempt to reduce the accumulation of business, which fact they think should entitle them to more consideration than would be shown in a curtailment of their leaves of absence.

[illegible] ON CENTRAL GRANT.

WASHINGTON, July 10.—The commissioner of the general land office, with the approval of the secretary of the interior, has expressed an opinion that congress intended to reserve from forfeiture lands within the granted limits along the whole constructed portions of the Oregon Central railway and telegraph line from Portland to Astoria in Oregon, irrespective of whether they were adjacent and coterminous with uncompleted portions of the road or not.

The comptroller will render a decision to-morrow. The note in question is for $50 and was paid [illegible] [illegible] [illegible] days ago.

THE CATTLE TRAIL DISPUTE.

The Other Side has Something to Say About the Detention of Cattle

WASHINGTON, July 10.—The commissioner of agriculture to-day received the following telegram:

CHEYENNE, Wy., July 10.

Hon. N. J. Colman, Commissioner of Agriculture, Washington, D. C.: Having seen in morning newspapers a copy of a telegram sent to you by J. R. Blocher and others concerning the stoppage of the cattle trail to Indian territory, I beg to enter an emphatic protest against several of the statements made as being untrue and misleading. It is true that an armed force is in the vicinity of the old trail. It is there for the protection of lease holders, on account of Mr. Blocher and other drivers having publicly announced their intention of crossing these leases in defiance of law. They will not meet with any opposition until they enter these leased lands, and if the law decides that they can cross such lands they will meet with no armed opposition.

In the meantime we believe they legally have no right to cross over leased lands, and further that the common law of the country as well as provisions in the animal industry bill will protect all lessees from cattle from infected regions of Texas fever. A majority of the cattle coming up the trail are from districts from which in former years Texas fever has sprung. The statement that they are healthy is a pure fabrication. There is no objection to the passing up the old trail, but these herds propose to leave said trail and drive across leased lands held by myself and others, over which there has never been a public trail, and stockmen who hold these leases and have cattle ranging on said lands object to herds coming from infected districts passing over their lands and endangering healthy cattle by communicating Texas fever to them.

I appeal to you and others in authority at Washington not to listen to any one-sided statements from interested parties. [illegible] the law take its course. We have the right to try this case in the courts, and we propose to stand by the decision of the tribunals of the country.

JOHN CLAY, JR.

FROM FORT DODGE.

DODGE CITY, Ks., July 10.—The situation between the northwestern ranchmen and Texas drovers is becoming daily more complicated. Through Texas stock is rapidly accumulating at a point south of Fort Supply, on the Canadian river. Over 100,000 head of cattle have been stopped there by Deputy Marshal Bell, who has made several arrests of persons in charge of cattle.

Complaint has been made by one John Landers before United States Commissioner Cook against five different persons, two of whom were arrested, John Hocker and Oscar Woods, and brought to this city for trial. The parties are charged with violating the animal industry law. The preliminary hearing is set for to-morrow.

Cattle men declare that the drive from Texas this year is unusually healthy, and the trail herds are in the very best condition. Telegrams have been received here from the secretary of the interior that drives from Texas have a right to proceed unmolested through the Indian country over the common trail. The prevailing opinion is now that the United States attorney and marshal will receive special instructions from Washington [illegible] the safe and [illegible] [illegible] of cattle from Texas [illegible] their destination subject to [illegible] local quarantine regulations.

THE NAVY YARDS.

Secretary Whitney Contemplating an Entire Reorganization

WASHINGTON, July 10.—The secretary of the navy proposes effecting an entire reorganization of the navy yards not later than next fall. An investigation looking to this end has been in progress several weeks. Committees at the various yards have been examining books and papers covering a period of ten years. These committees have been aided by assistance of special commission sent from the navy department. Reports are to be sent to Washington and compared with the books here. The object of the investigation is to learn whether or not the books will agree with the accounts in the department at Washington. It is thought that already a discovery has been made that the books at the department show that certain materials which ought to be on hand in one of the yards cannot be found.

At Mare Island navy yard, California, investigation will be most thorough because of reports of needless expenditures of money at that place. The secretary has been furnished with the names of a number of persons who say that they can give evidence of fraud in that yard to the detriment of United States vessels.

When the secretary [illegible] investigation of repairs of vessels in all the yards he asked of a naval officer to-day who is acquainted with the [illegible] [illegible] [illegible] [illegible] [illegible] "It is necessary to order an investigation," he replied. "Money has been spent in some cases recklessly and extravagantly, but it cannot be recovered."

AT MARE ISLAND.

"At navy yard Mare Island large amounts have been expended. This yard is a great distance from Washington and officers have seemed to feel that they could act with impunity. I have heard it said that rotten wood has been placed in vessels being repaired, that they might soon be returned for additional repairs. A little more than three years ago the Pensacola was condemned at the Mare Island navy yard. She was thought [illegible] [illegible] and sent [illegible] three years cruise [illegible] only recently received reports that officials in California said were necessary when she was there. Charges are higher at Mare Island than in private yards on the Pacific coast. A coast survey official had a vessel taken there for repairs. She needed but little work, yet the Mare Island officials wanted $[illegible]400. The work was performed by a private company for $1500. In the proposed reorganization the secretary will manage to dispense with the services of so many bosses of yards which are full of masters this and master that. All get $5 a day whether they work or not. Four hours is a day's work in some instances. A sail maker went from Boston to one of the yards and began working eight hours a day. He was told to labor less time than he [illegible] [illegible] might be allowed to accomplish so much work."

ANNAM.

DE COURCY ISSUES A MANIFESTO.

PARIS, July 10.—A dispatch to the government from Hue, the capital of Annam, arrived to-day, says General De Courcy has issued a manifesto to the effect that with the exception of a few of the ringleaders who planned the recent unprovoked attack upon the French troops at Hue, all those rebels who surrender within twelve days will be granted general amnesty. Annamite troops at Hue and its environs have disbanded and surrendered their arms to General De Courcy.

WANT ANNAM ANNEXED.

PARIS, July 10.—The ministry is being strongly urged to annex Annam. Pressure in this direction is almost irresistible and it requires all M. De Freycinet's skill to prevent his colleagues from being precipitated in the matter. He is adverse to any step that might provoke a misunderstanding with China and renew France's eastern troubles. It is reported here that the Blackflags will reinforce the Annamites in any contest the latter may decide to wage against the French.

General Puljar, Urdaneta, Prado and other chiefs were on board. The government troops at Carupano had pronounced in favor of the revolutionists. It was asserted in Trinidad on June 27 that Matwin, Cumana and [illegible] had also pronounced against the government.

THE INDIAN TROUBLES

General Sheridan Sent West by the President.

THE SITUATION MORE OMINOUS

The Cheyennes Prepared to Rebel if an Attempt is Made to Disarm Them—Canadian Indians Invading Montana—Frontier Notes

WASHINGTON, July 10.—The president to-day handed to [illegible] the following letter to General Sheridan:

Lieutenant General P. H. Sheridan—Sir: In view of possible disturbances that may occur among Indians in Indian territory and the contemplated concentration of troops in that vicinity, I deem it necessary that you proceed at once to the location where the trouble is to be apprehended and advise with and direct those in command as to steps to be taken to prevent disorder and depredations by Indians and as to the disposition of troops.

Your acquaintance with the history, habits and customs of these Indians leads me also to request you to invite statements on their part as to any real or fancied injury or injustice toward them or any other causes that may have led to discontent, and inform yourself generally as to their condition. You are justified in assuring them that any cause of complaint will be fully examined by the authorities and if any wrongs exist they shall be remedied. I think I hardly need add that they must be fully assured of the determination on the part of the government to enforce their peaceful control [illegible] by all the power it has [illegible] [illegible] prevent any mischief, lawlessness and any outrages upon our settlers. Yours truly,

GROVER CLEVELAND.

General Sheridan started to-night for the west to carry out the president's instructions.

BECOMING MORE SERIOUS.

WASHINGTON, July 10.—The Indian troubles as looked at from Washington are becoming more serious. General Sheridan left here to-night for Fort [illegible] Indian territory. The general desires to be at the scene of conflict. A telegram has been sent to the officer in command which says the outbreak must be suppressed even if the Cheyennes are wiped out of existence. General Miles is expected to arrive in Indian territory not later than the first of next week. Hope is expressed that he may be able to quiet the disturbance without bloodshed. He is well known to the Indians and is said to have considerable influence over them. In a trouble with Cheyennes some years ago they surrendered to him voluntarily. Prior to that it was their custom to refuse to surrender.

The Indian commissioner had not received telegrams from the scene of the disturbance up to the close of office hours to-day. In answer to an inquiry as to whether it was the intention of the government to disarm the Cheyennes he declined to give any information. He declared that great harm might be done by the premature publication of the intentions of the government in such cases, as it enabled the Indians to prepare themselves for resistance. Nevertheless it can be stated that the interior department is strongly in favor of disarming the Cheyennes and that Inspector Armstrong has recommended the adoption of this precaution.

THE CHEYENNES MORE MENACING.

WICHITA, Kansas, July 10.—Dispatches to the *Eagle* of yesterday's date from the territory, says [illegible] that the situation there is more menacing than has been admitted by the authorities [illegible] department to [illegible] the department is necessary to prevent an outbreak. Agent Dyer, after instructions from the Commissioner of Indian Affairs, undertook to make a census of the Cheyennes but was stopped by dog soldiers, who threatened with death any who should report for enrollment, at the same time placing two of their number as guards over the Agent's office. They stopped work on the farms and threatened Dyer with death if he persisted in carrying out his orders. They openly declare that Dyer must go as he restricts their liberty. Dyer has simply been trying to keep them at work. On Wednesday night, after midnight, a party of painted dog soldiers rode into the agency and called for the agent. They were told he had gone over to Fort Reno, and after a short time the Indians rode away. Their spokesman was the same man who [illegible] [illegible] Others [illegible] say that it is their intention to bring [illegible] disorderly bands into subjection and [illegible] waiting the arrival of reinforcements that have been ordered, as a greater force must be concentrated at Fort Reno or Cantonment.

THE PROPOSED TRANSFER OF APACHES.

WASHINGTON, July 10.—Gordon Adams and several other residents of Arizona have had interviews with the secretary of the interior in reference to the proposed transfer of Apaches on San Carlos reservation to Indian territory. The secretary examined the legal status of the Indians, and found that the act of February 17, 1879, forbade the transfer of Apaches or any other Indians in Arizona or New Mexico to Indian territory, until congress should have legislated further upon the subject. The Arizona delegation were somewhat confounded when their attention was called to the fact of the existence of what was unknown to them. It was suggested to them that the Apaches might, without violating a statute, be transferred to No Man's Land, west of Indian territory, or to Greer county, Texas, a tract claimed by both Texas and Indian territory, in the event that it should be found to belong to Texas. The suggestion was accepted by the gentlemen and they will make a strong effort to secure the president's consent to the plan.

FROM THE CHEYENNE AGENCY.

WICHITA, Kas., July 10.—The *Eagle's* telegram from Cheyenne agency [illegible] says that the aspect is undoubtedly proving more serious from day to day, and that troops sufficient for complete police patrol will prove the only means of safety. The Cheyennes have sent a large number of their war horses out west, under apprehensions of an attack from the military, in which event they would be a safe distance from raiding. Small bodies of Indians are slipping away every day, and it is believed they are all ready to stampede to the wilds in a body as [illegible] as their spies, who overrun the agency, are satisfied that the government means to disarm them. It leaked out at the agency to-day from Indian sources that the Indians themselves believe that a band which went west to the Pan Handle have been corralled by citizens and cow boys, but the authorities have had no verification of the report.

THE [illegible] INEVITABLE.

WICHITA, Kas., July 10.—Mr. Hallowell, one of the agency farmers employed by the government to teach agriculture to the Cheyenne, Arapahoe and Comanche Indians, has arrived from Fort Reno. Mr. Hallowell, being interviewed, says he considers trouble inevitable. Bent brothers, half breed Cheyennes and sons of old Colonel Bent of plains fame, say the Indians expect an effort to be made by the government to disarm them, in which event they will sell their lives as dearly as possible. The Bents, who own a large amount of personal property, are disposing of everything. The Indians are in want of [illegible] in the way of ammunition. Not only the Bents but head Indians are [illegible] their ponies. Wolf Robe, of the [illegible] [illegible] has [illegible] [illegible] coming up to state lines. Mr. Hallowell [illegible] [illegible] Cheyenne [illegible] being herded for an emergency.

CONCENTRATING TROOPS.

KANSAS CITY, July 10.—The *Times'* Fort Leavenworth special: Fifteen companies of soldiers have been ordered from the department of the Platte and Texas at once to Fort Reno. This will make 2000 men in the field. General Augur left last night for the east.

GALVESTON, July 10.—A special to the *News* from San Antonio says: Eight hundred troops from various forts in Texas are to be massed here in the next three days. They will be forwarded to Kansas [illegible] any [illegible] increase that may arise from the present restless state of the Indians in the [illegible] part of Indian territory. The objective point of the troops is Crossfield. They will be under the command of Colonel R. F. Bernard.

CANADIAN INDIANS INVADING MONTANA.

WASHINGTON, July 10.—A telegram received at the war department to-day intimated that Indian [illegible] had occurred [illegible] [illegible] places. The dispatch was from General Terry and said Colonel Brooke, commanding the district of Montana, has received information from Canadian authorities that 100 lodges of insurgent Cree Canadians under [illegible] [illegible] toward the boundary line. THE UMATILLA INDIANS.

The effort to induce the Indians of Umatilla reservation to take lands in severalty appears to be making no progress, and, unless the plan is changed it is probably destined to fail. THE OREGONIAN has been favored by a statement on the subject from Father Conrady of the Catholic church, who has been the mission priest at the reservation during the last eleven years, and who therefore has had full opportunities of learning the mind of the Indians, and he expresses his opinion in a very positive manner that unless the work of settling the Indians be undertaken on a more definite plan than has as yet been developed nothing whatever will come of it. The primary obstacle, he tells us, is the hesitation of the Indians, the result of a natural apprehension on their part that nothing will be done to help them that they will each get a naked tract of land and nothing else that the proceeds of the sale of the remainder of the lands of the reservation will not be devoted fairly and judiciously to their benefit, and that the change may leave them poorer and more helpless than they now are. They find no definite guarantee that what is promised in loose and general terms will be performed, and their disinclination to make the change is therefore very great. As matters now stand, their consent to it will not be gained.

Father Conrady says that from $300,000 to $400,000 have been spent by the government on the Umatilla reservation yet there are not today $12,000 worth of improvements to show for this great sum, while the Indians are still almost or quite as helpless as they were at the beginning. They have not been taught to do anything for themselves. It is difficult undoubtedly to break their habits of indolence, but industry is the only thing that can open the road to their regeneration. The agents have done little or nothing, but perhaps this is due not more to their fault than to the fault of the system under which they have been working.

What seems to be a very practical plan for the Umatilla reservation is suggested by Father Conrady. It is impossible, he thinks to get the consent of all the Indians at once to the change that is proposed. But a successful beginning could be made with a few and the remainder would gradually come in. What is necessary first is to put the business in the hands of a man—or a commission of three would be better—in whom the Indians would have confidence and to whom they would attach the idea of responsibility. A small number of the Indians could be induced to make the experiment; they would locate on the lands they might select, and improvements would be made thereon under direction of the commission; the new proprietors would be shown the advantages of the change and taught to rely on themselves and the remaining Indians, seeing what was being done for their fellows, would soon yield assent and accept the plan. It would require but a small amount of money to make this beginning and after the work was well under way the proceeds arising from the sale of the remaining lands, or lands left over after all the Indians had been supplied, would be ample to defray all the expenses of settling the Indians in severalty, helping them with their improvements and giving them such a start as would soon make them self-supporting. But while all this is going on careful and responsible superintendence will be indispensable. In what has so far been offered the Indians see nothing definite, nothing upon which they feel they can rely; and promises to them, without visible assurance of performance have little or no weight.

The suggestions of Father Conrady are simple direct and practical. The plan, he says, "will require a few years—three to five—to show its fruits but even after one year the Indians would have seen enough to have confidence in it and in the government, which may then proceed with the sale [illegible] of the land without opposition from them. [illegible] would be [illegible] I put my head [illegible] the [illegible]

I say [illegible] lands of the reservation [illegible] that the government will soon proceed to dispose of the lands, with or without the consent of the Indians. Such supposition would be a great mistake. There is no probability that the government will use force in the premises. The very weakness of the Indians is their protection against it. It is plain that what the Indians require is definite assurance [illegible] of these premises [illegible] made. An [illegible] the government [illegible] the Indians [illegible] reliability [illegible] stances they [illegible] recommendations [illegible]

[illegible] railway improvements are [illegible] For example [illegible] a year [illegible] than half the [illegible] receiver.

It is believed by the publishers of General Grant's memoirs that there will be orders for not less than half a million copies, in advance of publication. The rate at which orders are coming in warrant this estimate.

THE CANADIAN PACIFIC AND THE BRITISH TERRITORIES.

A highly satisfactory showing of the progress and prospects of the Canadian Pacific railroad has just been made by the management to the stockholders, and is given to the public through Canadian journals. Construction has progressed with wonderful rapidity, and the great enterprise is now practically completed. Connection between the eastern and western divisions has yet to be made, but the funds are provided, the contracts have been let and the work will be accomplished by the end of the current year. Of the main line between Montreal and the Pacific coast, a distance of [illegible] miles, only 300 miles remain to be built although the division north of Lake Superior is not entirely finished. The company has constructed and equipped 2314 miles of first-class road within five years from the time when it first began work, an achievement almost without parallel in the annals of railway construction. The total mileage of the company's lines is [illegible] miles connecting the St. Lawrence and the Pacific ocean, and with various branches in the eastern provinces. These eastern extensions, embraced in the Ontario and Quebec system, have a total length of nearly [illegible] miles and bring the main stem into connection with Toronto and the growing cities of Ontario.

This great road is a political rather than a business enterprise, and it has not been expected that for some years it will yield profits. Indeed, it has not been expected to earn even its operating expenses, and the important question with its stockholders has been how much the deficit would be. The results of the past year, however, warrant better hopes. It is estimated that the fixed charges of the line will be $5,000,000 per annum. Last year the earnings of the unconnected sections were $1,200,000, or nearly half of the fixed charges when the road is entirely finished. The operating expenses were also proportionately greater last year than they will be from now on, so that the net earnings will increase faster than the gross receipts. In estimating these net earnings the construction material is not included so as to affect the result. From this showing there is certainly reason to hope that the road will pay actual expenses from the beginning.

It is not likely that the British territories will ever equal the adjacent American states in wealth or population. Their productive areas are not so great and their climate is less favorable for agricultural industry but they are not wanting in many advantages which will attract population and promote industrial wealth. Their resources of timber, coal, precious metals are great, and must, in a very short time, furnish business for the railroad in return for the population it will bring to them.

Of all the British territories we believe that of British Columbia, our neighbor, will in time be the richest. It has all the innumerable natural advantages over its sister territories to the east that Oregon and Washington have over the tier of American states which lie east of us. Speaking recently on the subject the Port Moody Gazette said very truly: "Our wealth derived from nature is immense, not like Ontario, as an agricultural province but as containing all the resources of an industrial people, in minerals of all kinds, including gold, silver, copper, lead, iron, coal, lime, the best quality of clay, timber, fish, magnificent rivers, safe harbors, and, above all, the position on the Pacific ocean which commands the best and readiest communication with all the countries around which the Pacific and Indian oceans flow. British Columbia is not only blest with a hundred general advantages, but she is the gate to the Pacific."

Secretary Lamar displayed his flag in honor of rebel Jake Thompson but not in honor of the Fourth of July.

General John Gibbon, who has been appointed brigadier general, [illegible] an meritorious military career. He is a native of Pennsylvania, was born in 18[illegible] and graduated at West Point in 1847. He served in the Mexican war, was an instructor at West Point in 1854-[illegible], became a captain in 1860, and soon after the outbreak of the great rebellion was made a brigadier general of volunteers. He was with the army of the Potomac during nearly its entire history and participated in all its great battles. He commanded the second corps at Gettysburg, where he was severely wounded, and afterwards a division in the same corps, serving under Grant till the end of the war. In 1866 he was made colonel of the 36th infantry. Much of the time since the great war he has been in active service on frontier stations. He it was who intercepted Joseph's Nez Perces at Big Hole, in Montana, killing a large number of them and losing nearly one-half his whole force. It is understood that General Gibbon will succeed General Miles as commander of the department of the Columbia.

As soon as we reached the front of the federal position we put out our skirmish lines and I ordered an advance, intending to make an attack but revoked it on Jackson arriving [illegible] awaiting the arrival of General Lee. Very soon General Lee came and, after carefully [illegible] ring the position of the enemy and [illegible] dats on the James, decided it would be better to forego any further operations. POLITICAL EXPRESSION.

If the republican journals in Virginia follow the pertinent advice of the Richmond *Whig* they will spend their time and energies in fighting the bourbons and not in stirring up bad blood among themselves.

We trust that it may prove otherwise, but it has that appearance at first sight. Don't be despondent, neighbor. Beattie may be as good a mugwump as Higgins.

I hear that Mr. Bailey, the original Danbury News man who was $10,000 worse than nothing through the bad management of associates has paid off all his debts, cleared a handsome fortune and built a fine house. It is singular that Bailey first made money through his humorous writings and then lost it by going to Europe and leaving others to do his work. When he found that the public had gone back on Danbury jokes Mr. Bailey proceeded to make a first-class local newspaper and the result was paying ads, a good cash circulation and a large bank account. Bailey is a good looking man with a splendid brain, the physique and the most genial of dispositions. When he was in London he won the friendship of distinguished men.

LOCAL AND GENERAL.

HARNESS THIEF CAPTURED.—The harness thief mentioned in these columns yesterday has been caught, examined before Police Judge Moreland, held to answer before the grand jury and is now in the county jail. His name is Thomas Bryan and he is about 60 years old and used to be employed at the rock crusher at the end of Fifth street. The harness stolen from Ogden's place corner First and Sherman streets belonged to Frank Capen who espied it yesterday morning on a horse being driven by some bill posters and tracked it to Gardner's livery stable corner of Third and Ash streets. Gardner stated that he had bought it of Bryan and delivered it to the police. He then went out and found Bryan and took him down to his stable where he was giving the old man a thrashing when the police came and took him off to jail. Bryan is certainly the person who stole H S Rowe's harness from P Whitcomb's place corner of Second and Sherman as Mr. Whitcomb noticed him lurking around the place long time the day before the harness was stolen. In carrying it away he dropped the breast strap, and the next [illegible] stable evidently looking for it. When told that he was thought to be the thief he slunk off but the next day came back to threaten a damage suit for defamation of character. He denies having taken Mr Rowe's harness but the police think they will soon find it. The miserable old man has been around with a sort of veterinary surgeon considerable and so when he offered the harness for sale it was supposed that he came honestly by it. Gardner has [illegible] by purchasing stolen horses and this [illegible] was more than he could stand and [illegible] the old man who has probably [illegible] that the way of the transgressor is hard.

ASK ATTACHMENTS TO BE SET ASIDE.—H [illegible] began suit in the state circuit court yesterday against Webber & Foster, Wm [illegible], the First National bank of Portland, Thomas A Jordan, sheriff, J D Danforth and D Ainsworth. As might be supposed where [illegible] defendants the complaint filed is a voluminous affair and to hunt through it for the principal points for an item is like hunting for a needle in a haystack. Plaintiff commences the action in behalf of himself and all other creditors of J D Danforth and D Ainsworth partners under the firm name of The Spokane County Bank of [illegible] Spokane county W T. Danforth and Ainsworth became bankrupt about September 1[illegible] 1884. On the 20th of that month Wm Bingham commenced action against them in the state circuit court of Multnomah county to recover $2 3[illegible] 8[illegible]. The complaint alleges that the suit was commenced here with intent to defraud other creditors of the bankrupts. By virtue of this suit Sheriff Jordan attached property belonging to Danforth and Ainsworth in the First National bank and Webber and Foster attached to recover $1157 in the same bank. January 1 1885 plaintiff obtained judgment against Danforth and Ainsworth for $11 2[illegible]0 and he claims that defendants combined to prevent him from recovering his claim and prays that these attachments be set aside by the court and all the creditors of Danforth and Ainsworth be allowed to share in their assets, or words to that effect.

SUIT AGAINST BONDSMEN.—The United States court was occupied during the forenoon session yesterday hearing the arguments in the case of the government against the bondsmen of W H Adams formerly collector of customs at Astoria to recover an amount stolen from Mr Adams while he was taking to San Francisco. Judges George H Williams and J K Kelly appeared for the bondsmen and District Attorney Watson for the government. The argument was on the demurrer to the defendant's answer. The answer was that Mr Adams was ordered by the assistant secretary of the treasury on February 3 188[illegible] to take what funds there were on hand in person to San Francisco and deposit it there with the assistant treasurer and while executing this order part of the money was stolen. In demurring to this answer the government set up that the assistant secretary of the treasury had no authority to make such an order and he had no right to obey it and that the [illegible] of public money by robbery is no defense. The amount Mr Adams started with was 47,000. Of this over $20,000 was stolen. There was recovered from the thief $6,000, leaving a balance due the government of $1[illegible]. This with interest from the date of the treasury's statement amounts to a little over [illegible] which is the amount sued for.

PLAYED IT ON THE PHOTOGRAPHER.—About 4 o'clock yesterday afternoon a young fellow roughly dressed and having the appearance of a farm hand came into Partridge's photograph gallery opposite the postoffice to have himself "took." Just before he sat down he noticed a handsome pin which Partridge wore and asked that he might have the loan of it to adorn his shirt front during the process of securing the shadow before the substance faded. The pin would improve his looks and please his girl for whom especially he wanted a photograph. Partridge accommodated him, a negative was taken and the artist as usual darted into the dark room to work it out. He was somewhat surprised when he returned to the operating room to find that the substance had fled and the bird had flown. The theft was immediately reported to the police and two hours after the central station was supplied with photographs of the sharper. Whether the fellow went into the gallery with the object of securing the pin [illegible] the charm of novelty.

BOYS AND GIRLS' AID SOCIETY.—At the call of the committee a meeting of citizens interested in organizing a boys and girls aid society was held at the parlors of Ladd & Tilton bank last evening, Mr W S Ladd presiding. The committee appointed at the previous meeting to draft a plan for permanent organization offered a report submitting articles of incorporation and by-laws for adoption. They recommended that election of officers be deferred until a membership of twenty-five names are enrolled and subscribers for one year [illegible] by the directors may become a member [illegible] of $2 a year), and that a finance committee be appointed to solicit such membership. The report was adopted as read and the following committee appointed to solicit members and funds: Mrs E Powers, F K Arnold, L L Hawkins, W [illegible] Brown and Helen F Spaulding. The meeting adopted constitution and by-laws which will be published in to-morrow's OREGONIAN. All present signed the request of the committee to become members and the meeting adjourned subject to the call of the committee.

FISHING AS IS FISHING.—Captain [illegible] who has been employed for some time on government contract for improving the Snake river is in the city. He has been visiting the Coeur d'Alene country of late and states that lake Coeur d'Alene furnishes the finest fishing [illegible] from a boat a few evenings ago [illegible] hours of 4 and [illegible] he caught 110 trout which averaged five-eighths of a pound. [illegible] several days in succession caught fifty [illegible] trout there. It is certain that there is no better fishing found in the northwest than [illegible] lake, and advises all [illegible] sport to go there.

HUMANE SOCIETY MEETING.—The Oregon Humane Society has just issued a pamphlet for [illegible] distribution. It contains a copy of the acts of the last legislature providing for the more effectual prevention of cruelty [illegible] the constitution of the society [illegible] annual meeting and epitome of its work done. The officers are President [illegible], corresponding secretary [illegible], recording secretary George H Himes, treasurer [illegible].

BICYCLE RACE.—[illegible] Merrill [illegible] leaves this [illegible] where he will run a twenty-mile race with [illegible] S Rollinson champion of America. [illegible] challenged Merrill and the latter accepted putting up $50 forfeit. The terms are $100 a side and gate receipts, Rollinson to allow his opponent [illegible] mile, or one and one-half minutes start. The race will come off within a week after Merrill's arrival.

THE EAST SIDE.

BOARD OF FIRE DELEGATES.

The East Portland board of fire delegates met in regular session last evening, President Cunningham in the chair and all members present except Halfpenny and Welch. Following is a synopsis of the business transacted:

An amended roll of membership of [illegible] company No [illegible] was submitted and ordered placed on file.

A bill of $7 50 for a department seal was ordered paid.

The board went into committee of the whole to consider the petition of the Owl Hose Company for admission into the department, M[illegible] in the chair.

Cunningham moved that the committee recommend to the board that the petition be referred to appropriate committees to report at the next meeting. A lengthy discussion ensued, the prevailing opinion being that there was no necessity for a new hose company with the present facilities for water, that in the present financial condition of the city it could not and should not equip such a company, that there was an actual need for a hook and ladder company, the only kind that should be admitted at the present time, especially as the city possessed the necessary apparatus therefor. [illegible] the motion of Mr Cunningham prevailed and the committee rose and reported.

The report of the committee being submitted to the board Meyer was the only member that voted to adopt it, other members not voting, and the motion to adopt was declared lost.

McEwan now moved that the constitution of the new company be referred to the committee on judiciary, the roll of membership to the committee on certificates and the petition to a special committee consisting of the president, Meyer and Brickell. The motion prevailed, Meyer voting no.

On motion of Meade it was ordered that when the board adjourns it adjourn to meet next Thursday evening to hear the report of the above committees.

On motion of McEwan [illegible] were allowed to increase the limit on the price from [illegible] cents to $1 each.

On motion of Meyer, the secretary was instructed to draw a warrant for his salary.

On motion of Brickell the committee on rules [illegible] instructed to prepare a system of fire alarms and make report at the next meeting. Adjourned.

SUDDEN DEATH.

About 11 o'clock yesterday morning Bertha [illegible], aged 10 years, daughter of Frank [illegible], rather suddenly expired in convulsions. The cause was ascertained to be an abscess on the brain which had burst. She had been complaining of her head during the week as she has before and no more was done for her relief than usual. Yesterday morning she was obliged to take to her bed, shortly became unconscious and died as stated. This result was so sudden and unexpected that her father went to business as usual and when informed of it by a messenger could hardly withstand the shock. Deceased was a bright and remarkably intelligent girl. On account of her frail health her parents withheld her from school last term, fearing [illegible] the result of too hard study. The result however proved otherwise and could not have been prevented if [illegible].

EAST PORTLANDERS IN VICTORIA.

From parties just returned here from Victoria the following information is learned of former East Portlanders now located there:

J J Matlock is keeping a peanut stand. C O Blakely is a journeyman carpenter. Ed Gray is a journeyman plasterer. Ed Crosier is driving an express wagon and Billy Nicholson is driving a hack.

NOTES.

Joseph Knott returned with the baseball [illegible] his trip to the sound and Victoria.

Miss Mina Thomas, daughter of John Thomas, has left yesterday to visit with relatives at The Dalles.

The Albina baseball club has accepted the challenge of the Willamettes and the game will be played at the O[illegible] at 2 o'clock Sunday.

A little son of W H Burbank nearly severed one of his fingers by a mishap with a hatchet yesterday but amputation will not be necessary.

Henry Meyer was arraigned on a charge of assault and battery preferred by Joseph Riddle on a warrant sworn out in Justice Simpson's court. Defendant pleaded not guilty, and examination was set for 9 o'clock to-day.

While a large band of cattle was being driven through town yesterday John Parsons' cow became mixed with them and a drover who threw a rock at it to drive it out broke its leg thereby. Mr Larker was offered the pick of the band for reparation. This he refused and demanded $[illegible].

THE CORVALLIS SUICIDE

The Result of a Disgraceful Family Row.

The announcement that F Rosenthal of Corvallis had committed suicide was published a short time ago but only a brief mention of the causes that led to the act. The Corvallis Gazette now supplies the particulars:

Rosenthal was the son in law of Mr and Mrs I G Kline, having married their oldest daughter Sarah about three or four years ago, who sickened and died a little over a year ago, since which time Mr Rosenthal has been very despondent. Since the death of his wife until the last few weeks Rosenthal has boarded and roomed at the home of the elder Mr and Mrs Kline. A difficulty arose between Rosenthal and the Klines, about the possession of certain wedding presents to Rosenthal and wife. On Thursday evening Kline and wife, their son Moses and daughter Pauline went to Rosenthal's place of business, where an altercation took place in which Mrs Kline and her daughter, one armed with a raw hide whip and the other with a stick, undertook to administer a thrashing to Mr Rosenthal. Messrs. H E Taylor and Mrs Friendly however happened to be present, who finally succeeded in stopping the assault and getting the Klines to start home. After this difficulty occurred, as shown by the testimony taken before the coroner's jury, Rosenthal about [illegible] o'clock at night shot himself in the mouth with a pistol, the ball coming out at the top of his head. At the coroner's inquest a paper written by Rosenthal and found on the table at his bedside was produced, which read as follows:

Do not let Kline take anything belonging to me. [illegible] F ROSENTHAL.

Mr and Mrs I G Kline and daughter Pauline have killed me after they had robbed me. [illegible] F ROSENTHAL.

[illegible] Mr Friendly and Moses [illegible] my funeral except Simon and his wife.

Mr Moses [illegible] was 8 o'clock last night I was standing in front of Rosenthal's store and [illegible] Mrs Kline and daughter and son coming [illegible]

[illegible]

[illegible] with whips [illegible]

[illegible]

The coroner's jury consisted of G A Waggoner, Wallace Baldwin, S L Henderson, W P Briggs, H Gerber, L A Hemphill, and their verdict was that Rosenthal's death was caused by a shot from a pistol fired by his own hand and with the intention of taking his own life.

ON TRIAL FOR MURDER

The Case of Wong Foon Charged with Killing Ah Hee in this City June 13

The case of the state of Oregon vs Wong Foon came up for trial in department No. 2 of the state circuit court. The defendant was indicted jointly with Ching Hong for the murder of Ah Hee about noon on Saturday June 13 in front of the joss house on Second street. Separate trials were demanded and Wong Foon being charged with firing the fatal shot was put on trial first.

A great deal of interest is taken in the trial by the Chinese and the large courtroom upstairs was thronged with them. Very few white men were present. Hon. [illegible] Mallory and James Gleason assisted District Attorney [illegible] in the prosecution while Judge J C Moreland and ex-Governor George L Woods appeared for the defense.

The forenoon was consumed in trying to impanel a jury. Only eight had been accepted when the regular panel ran out. A special venire of twelve was then summoned and when the court adjourned at noon eleven jurors had been accepted.

Shortly after the court convened in the afternoon the jury was completed as follows: [illegible], J Frank, W Simmonds, Miles Caldwell, Charles A Schaber, R Mendenhall, George H[illegible]ness, W S Fletcher, J M Nelson, Charles [illegible]kins, John Croghan and A T Workman.

Judge Moreland asked that all Chinese be excluded from the room.

The prosecution asked that all witnesses be excluded and the court so ordered.

Lee Fung Sun was sworn in as interpreter.

Both sides were then ordered to call their witnesses. The prosecution named twenty two, over half of whom were white men. The defense called one Chinaman as their only witness except a number who had been called by the prosecution.

The case was opened by James Gleason who read the indictment charging Wong Foon with murder and outlined the testimony by which it was proposed to show that the murder had been deliberately and premeditatedly committed.

Judge Moreland made the opening statement for the defense. After impressing the jury with the great responsibility which rested upon them he stated that the defense would show that the killing had been committed in self defense, that the defendant had been knocked down by deceased with an iron bar and while trying to get away had fired the shot to defend his life.

The first witness called by the state was Ah [illegible], a teacher of Chinese music. He testified that he was in a store near the scene of the shooting at the time the murder was committed, and heard some one say "there is the — —, hit him." He went to the door and saw Ah Hee walking along the sidewalk and Ching Hong and Wong Foon coming up behind him. Ching Hong pulled out a pistol and struck Ah Hee in the side of the head. Hee said, "What do you hit me for?" Hong then struck him again and his hat fell off. He stooped to pick up his hat, and Hong pointed his pistol at him when the witness caught his hand. As Ah Hee rose up Wong Foon shot him in the breast. He put his hands across his body and ran toward the joss house in the doorway of which he fell, and when the witness got to the place he was dead. The murderer ran up Second street and Ching Hong ran the other way.

Witness was cross-examined but his testimony could not be shaken.

Drs Rex and W [illegible] Chapman who made a post mortem examination of the body of the murdered man were next called and explained the nature of the wound. The ball had passed through the heart and lungs and had caused death immediately. Dr Rex said it was possible that the man could have gone a few steps after being shot but such a wound would produce what would be called instant death.

Coroner Cooke identified the pistol [illegible] which were offered in evidence.

H Fikes testified that he saw the defendant throw his pistol over into the chicken corral near the corner of Third and Morrison and he had gone in and got it with one barrel still warm and had taken it to the police station.

Edward Smith testified to meeting Wong Foon running away from the scene of the shooting with a pistol in his hand. He had chased him up Morrison street and after seeing him throw the pistol away had become braver and caught the fugitive and taken him to the city jail.

Several other witnesses were examined without eliciting anything of importance. Several policemen testified that the defendant acknowledged that he did the shooting.

Counsel for the defense noted an exception to that portion of the testimony which related to the admissions of the defendant that he had done the shooting.

The time for closing having arrived, court was adjourned until 9 o'clock this morning and by request of the prosecuting attorney the jury was ordered kept together.

ASHLAND NOTES.

ASHLAND, July 8.

Billy Mo[illegible] occupied the boards Monday night at Myer's hall.

Health in our community is extremely good, no serious sickness of any kind at present.

Ashland can justly boast of the best brass band in southern Oregon, and one of the best in the state.

It is feared that a number of persons who were poisoned at Jacksonville on the Fourth by eating ice cream will die.

Our woolen mills are working to their fullest capacity on an order for 6,000 pairs of [illegible] blankets, from a Portland firm.

Harvest has commenced, and it is thought that the crop will be a good one unless it be some very late sown grain. Corn looks good.

Janauschek appeared last evening in "Mary Stuart," at Myer's hall, to a comfortably filled house, most of whom were well pleased with the great actress.

We are in the midst of our fruit season. Peaches were never nicer or more abundant. Blackberries, plums and apples are so abundant as to be hardly worth the picking.

Mr and Mrs H Coolidge have gone to Iowa to spend the summer and probably the winter on account of Mrs Coolidge's health, which it is hoped the rigid atmosphere of that country will help.

The past three days have been the hottest experienced in southern Oregon for a great many years, the mercury at one time registering 103 in the shade. However, it has gotten quite comfortable again.

Mr Carr, who died so suddenly while working in his garden, was buried by the G. A. R. of which he was a member. He was a steady, industrious man, but having met with a number of disasters he leaves his family in almost destitute circumstances.

Our people do not have to leave town very far to find a cool, inviting place to spend these hot summer days, as right at our door almost is one of the grandest canyons in the west, with Ashland creek running through it, making it a place fit for the gods to dwell.

A number of strangers are at our different hotels trying the virtue of our famous white sulphur springs. It is expected that in the near future our city will become widely known as a sanitarium. Besides the hot and cold sulphur springs, there are within a few miles of town some fine soda springs, the water of which is acknowledged to be equal if not superior to any soda springs in the country.

The Fourth was observed in Ashland, the celebration taking place in our beautiful grove. Hon. F. B. Miller of Grants Pass was the principal orator, and his oration was a grand effort, not being altogether like the old stereotyped Fourth of July speech, but a review of our business and developments. Other speeches were made by J J Bowditch [illegible]. [illegible] in the afternoon and a nice display of [illegible] in the evening wound up the day.

A slight accident Monday evening [illegible] the [illegible] stage for about two hours [illegible] going down the Siskiyous the leaders got frightened at something and attempted to run off. Mr Giddings, the driver, was thrown to the ground, but luckily another man on the seat with the driver put on the brake, and prevented what might have been a severe catastrophe. The driver was not seriously hurt, and was on hand to [illegible] to the stage, which was [illegible].

NEW YORK STOCK MARKET.

NEW YORK, July 10.—Governments quiet, but firm. Stocks irregular and unsettled to an unusual degree, to-day's movements in certain stocks apparently being quite independent of the active shares. One of the special features of the market was strength in Vanderbilts on a growing impression that the effort to adjust the difficulty between the New York central and the West Shore on one hand, and the Pennsylvania and South Pennsylvania on the other, is meeting with considerable encouragement. With few exceptions prices at the close were ⅛ to ¼ per cent. lower, except Lackawanna, which shows a net loss of 1¾. Some of the inactive stocks are also down more than ¾ per cent. Omaha preferred and Reading each showing a loss of ¾.

The *Mail and Express* quotes mining shares as follows: Consolidated California and Virginia $1 20, Horn Silver, $3 05, Moulton $1 35, Navajo 75, Robinson Consolidated 50, Sierra Nevada $1 15, Sutro Tunnel $1 15, Union Consolidated 80.

The Passenger Agents' Association Goes to Pieces.

Dr O'Donnell has Trouble with an Ex-Mayor—Hail Storm at Spokane Falls—The Missing Man Returns from Mt. Hood

SAN FRANCISCO, July 10.—The Pacific coast passenger agents' association met this afternoon. The first subject taken up was the relation of agents of trunk lines east of Chicago to agents of Iowa lines and overland lines. Formerly the agents of lines east of Chicago formed an association, and agents of lines west of that city formed another association. Through the influence of Mr. Miller these two associations were consolidated. It was thought that the agents would get along more harmoniously if they held their deliberations jointly. For a time the arrangement was a success, but fierce competition among agents finally introduced discord. The association this afternoon decided to detach all agents of trunk lines from the organization, and the Pacific Coast passenger agents' association will hereafter be composed only of agents of lines west of Chicago. This action leaves the agents of trunk lines without any organization, and there is no pledge that rates will be maintained over trunk lines. There are therefore all the elements for another war of rates.

THE NEW MINT SUPERINTENDENT.

SAN FRANCISCO, July 9.—Judge Israel Lawton, new superintendent of the mint at this city, will shortly assume the duties of his office. He declares the mint will be carried on on purely business principles, and until he masters details not many changes will be made. In making his appointments he proposes to select those who will make good and efficient employes. He proposes to interview each applicant himself and to judge of his fitness independent of recommendations and indorsements presented. He has so far been overrun with applications, which already number 1200. In the mint at present there are 225 employes and when running on full time the number usually reaches 300.

THE O'DONNELLS SEEKING REVENGE.

George O'Donnell, son of Coroner O'Donnell, to-day obtained a warrant for the arrest of ex-Mayor A. J. Bryant, on a charge of making threats to kill Coroner O'Donnell. At a recent meeting where O'Donnell was the principal orator, he made a statement referring to ex-Mayor Bryant to which that gentleman took exception. The complaint alleges that Bryant lay in wait for the coroner at his office, threatening to shoot him on sight, but was unable to get sight of him. Bryant has left town for over Sunday. The warrant will probably not be served until Monday.

HOPS AT A DISCOUNT.

Dealers in hops are at a loss as to what to do with stocks, which are large. There is no demand, and forced sales do not bring out many buyers, either legitimately or on speculation.

SHIPPING INTELLIGENCE.

WEATHER INDICATIONS.

WASHINGTON TERRITORY.

SEVERE HAIL STORM AT SPOKANE FALLS.

SPOKANE FALLS, July 10.—The severest hail storm ever known in this section occurred at 6 o'clock this afternoon. It lasted fifteen minutes, and stones an inch and a quarter in diameter fell. Windows were broken throughout the city, and vegetable and flower gardens beaten to the ground and utterly ruined. Telephone wires were prostrated in several places, and teams ran away. For awhile it looked as if pandemonium had let loose. It is not known yet how far the storm extends, but if it reached farms outside great damage will result. About two inches fell in the city.

The father of Mayor A. M. Cannon was stricken with paralysis Wednesday evening. He is very low, and there are but little hopes of his recovery.

THE NORTHERN PACIFIC PARTY.

COLFAX, July 10.—President Harris, General Anderson, Paul Schulze and General Buckley of the Northern Pacific railroad, arrived to-day by special train. Mayor Perkins escorted the party through the surrounding country in a carriage, to show our wheat fields, that are a credit to any country on the globe.

STATE DISPATCHES.

ASTORIA NEWS ITEMS.

ASTORIA, July 10.—The Norwegian Brown, who was fearfully burned at the fire which originated in his saloon last Tuesday night, at Upper Astoria, died at the hospital to-day. He had been for many years a successful fisherman on the Columbia river, had accumulated property, and been a good fellow to everybody but himself.

The teachers' institute closed a very interesting, pleasant and successful meeting with a grand musical and literary entertainment this evening at Ross' opera house, for the benefit of the institute. The house was filled.

A NOVEL PLAN.

WASHINGTON, July 10.—A novel plan for raising funds has been adopted at the request of the humane society. The *National Republican* has consented to be custodian of such funds as may be contributed for the erection of drinking fountains at various points throughout this city, and proposes for the purpose of raising sufficient funds, and at the same time to test the sense of the people in regard to the disposal of federal offices, to hold an election by ballot at ten cents a vote between the Jacksonian motto: "To the victors belong the spoils," and President Cleveland's Christmas letter declaring that "efficiency, fitness, and devotion to public duty are conditions of continuance in public place." Two hundred votes for the Jacksonian motto and 155 for the Cleveland idea have already been cast.

NEWS OF THE NORTHWEST.

IDAHO.

A fire July 2d destroyed the Oregon Short Line Company's store and oil house at Montpelier, and some small car houses. At one time the entire destruction of the round house and other valuable property was threatened.

Weiser *Leader*: An assay made during the week on some Black Maria ore, Mineral district, showed $331 in gold and 127 ounces in silver to the ton. As soon as sacks arrive, Mr. Boggs informs us, shipment of this valuable ore to Salt Lake for reduction will be commenced.

Murray *Sun*: Placer gulch, on the south side, has again broken the monotony in the gold output by showing up a thirteen-ounce nugget. It was found on the claim of Billy Miller, immediately below the claim which gave up the 17½-ounce piece May 31. Reduced to coin the piece will bring $208, which is a fair pick-up these dull times.

Murray *Sun*: F. M. Davis and Mike Cowley have placed on exhibition at the bank of Murray, a fine specimen of blue quartz from their ledge in Dream gulch. The piece will weigh, perhaps, seventy-five pounds, and is said to be an average sample of the ledge, which is reported to be from ten to thirteen feet wide, with well defined walls. No assays having been made of the rock, its value can only be judged from appearances, but it is generally agreed to be worth sticking to very close. It does not show free gold.

The Silver City *Avalanche* says: Work will soon be commenced in extracting the rich ore recently found in the Empire mine. The ore will mill nearly $1000 per ton, as was demonstrated last week, when a clean up was made of thirty tons, as it came from the mine, which yielded $24,689 14, or over $800 per ton. This mine has lain idle for a number of years; it will now be worked. The ledge is large, and there are thousands of tons of free milling ore below water level that will mill $50 per ton. A pump will soon be placed in the mine to relieve the mine of water, when work will be commenced in earnest.

BRITISH COLUMBIA.

A dispatch from New Westminster says: Heavy bush-fires are raging near Noo-sack, W. T. The operator there reports three houses burned. The fire is still spreading and the settlers are very much alarmed. Fires are spreading in all directions around this city and Port Moody. The heat is intense. The loss will be great, as much valuable timber is being burned. Fears are entertained for the safety of houses in the locality of the fires.

Victoria *Times*: Captain Ainsworth states that it is the intention of the Kootenay Transportation company to commence building their line of railway next spring, and that they will spare no effort to bring the products of their mines to the Canadian Pacific railway. This is in fact the only point now in dispute between his and a rival company, the latter wishing to take the ores to Bonner's Ferry, there smelt them, and then ship via the Northern Pacific.

Yale *Sentinel*: The track-laying party are now this side of the Ferguson tunnel, and have the steamer Skuzzy moving along with the work, where the men board and lodge on board. The line runs most of the way convenient to the river, and this will be found handy nearly all the way to the Narrows. It is now stated that the cars may be looked for at Kamloops in a week. Once here the next twenty-five or thirty miles, over Mr. Keefer's contract, are expected to be laid at the rate of a mile a day.

DR. OWEN'S ELECTRIC BELT FOR MEN ONLY.
This BELT or Regenerator is made expressly for the cure of derangements of the generative organs. There is no mistake about this instrument, the continuous stream of ELECTRICITY permeating through the parts must restore them to healthy action. Do not confound this with Electric Belts advertised to cure all ills from head to toe. It is for the ONE specific purpose.
